The EMS Package

The EMS Package includes electronic subscriptions to all the EMS journals, excluding *Algebraic Geometry* and the *EMS Newsletter* which are both freely available online. Electronic subscriptions to all these journals, purchased separately, would cost 5442.00 €.

The 2017 EMS Package is available for 4353.60 €. It can be ordered either directly from the EMS Publishing House or through a subscription agent. Subscribers to the EMS Package can add printed copies of individual journals at Deep Discount Prices (DDP), that is, the difference between the “print+online” and “online only” prices listed on the other page.

The EMS e-book licenses

The European Mathematical Society Publishing House is offering an online version of their entire book collection. For a complete and up-to-date list of books, access to the online versions and general ordering terms please consult the book section on our homepage.

Price for 2017 subscription (first time):

5490 Euro (discount of more than 40% on the cumulated list price of currently 9724.00 Euro)

Renewal subscription for 2017 and 2018: 900 Euro

The EMS+MSP Joint Package

The EMS Publishing House and Mathematical Science Publishers are pleased to announce that we offer the EMS+MSP Joint Package – a bundle combining, at a significant discount, the EMS Package above together with the mathematics journals owned by MSP and the new *Annals of K-Theory*. Electronic subscriptions to all these journals, purchased separately, would cost about 7390 € or 8300 US\$.

The EMS+MSP Joint Package is available for 5175 € or 5815 US\$. It can be ordered from either publisher directly or through an agent. Printed copies of individual journals can be ordered individually at Deep Discount Prices directly from the journal's respective publisher.

We are hoping that many more high-quality independent and nonprofit journals will decide to join this package in the years ahead. We believe that, to remain competitive in a climate of increasing consolidation of commercial academic publishing and Big Deal bundles, small nonprofit and independent publishers and publications need to collaborate, pool their assets and marketing resources, and in particular offer an attractive bundle of their own.

All journals and serials can be ordered from your subscription agent or book seller; for direct orders and inquiries please contact (EMS journals, EMS Package, EMS e-book licenses, EMS+MSP Package):
