Foreword .....	vii
Introduction to Teichmüller theory, old and new, IV <i>by Athanase Papadopoulos</i> .....	1
<b>Part A. The metric and the analytic theory, 4</b>	
Chapter 1. Local and global aspects of Weil–Petersson geometry <i>by Sumio Yamada</i> .....	43
Chapter 2. Simple closed geodesics and the study of Teichmüller spaces <i>by Hugo Parlier</i> .....	113
Chapter 3. Curve complexes versus Tits buildings: structures and applications <i>by Lizhen Ji</i> .....	135
Chapter 4. Extremal length geometry <i>by Hideki Miyachi</i> .....	197
Chapter 5. Compactifications of Teichmüller spaces <i>by Ken’ichi Ohshika</i> .....	235
Chapter 6. Arc geometry and algebra: foliations, moduli spaces, string topology and field theory <i>by Ralph M. Kaufmann</i> .....	255
Chapter 7. The horoboundary and isometry group of Thurston’s Lipschitz metric <i>by Cormac Walsh</i> .....	327
Chapter 8. The horofunction compactification of the Teichmüller metric <i>by Lixin Liu and Weixu Su</i> .....	355

Chapter 9. Lipschitz algebras and compactifications of Teichmüller space <i>by Hideki Miyachi</i> .....	375
Chapter 10. On the geodesic geometry of infinite-dimensional Teichmüller spaces <i>by Zhong Li</i> .....	415
Chapter 11. Holomorphic families of Riemann surfaces and monodromy <i>by Hiroshige Shiga</i> .....	439
<b>Part B. Representation spaces and generalized structures, 2</b>	
Chapter 12. The deformation of flat affine structures on the two-torus <i>by Oliver Baues</i> .....	461
Chapter 13. Higher Teichmüller spaces: from $SL(2, \mathbb{R})$ to other Lie groups <i>by Marc Burger, Alessandra Iozzi, and Anna Wienhard</i> .....	539
Chapter 14. The theory of quasiconformal mappings in higher dimensions, I <i>by Gaven J. Martin</i> .....	619
<b>Part C. Dynamics</b>	
Chapter 15. Infinite-dimensional Teichmüller spaces and modular groups <i>by Katsuhiko Matsuzaki</i> .....	681
Chapter 16. Teichmüller spaces and holomorphic dynamics <i>by Xavier Buff, Guizhen Cui, and Lei Tan</i> .....	717
<b>Part D. The quantum theory, 2</b>	
Chapter 17. A survey of quantum Teichmüller space and Kashaev algebra <i>by Ren Guo</i> .....	759
<b>Part E. Sources</b>	
Chapter 18. Variable Riemann surfaces (translated from the German by Annette A'Campo-Neuen) <i>by Oswald Teichmüller</i> .....	787

Chapter 19. A commentary on Teichmüller's paper "Veränderliche Riemannsche Flächen"

*by Annette A'Campo-Neuen, Norbert A'Campo, Lizhen Ji,*

*and Athanase Papadopoulos* ..... 805
