Preface	vii
1 Introduction	1
1.1 Stochastic partial differential equations	1
1.2 Singular SPDEs	3
1.3 Regularity structures	6
1.4 About this book	7
2 A system of interacting diffusions	13
2.1 Deterministic dynamics	13
2.2 Existence and uniqueness of solutions	16
2.3 Invariant measure and reversibility	17
2.4 Large deviations	19
2.5 Metastability	20
Bibliographical notes	31
3 Allen–Cahn SPDE in one space dimension	33
3.1 Deterministic dynamics	34
3.2 Space-time white noise	37
3.3 The stochastic heat equation	41
3.4 Existence and uniqueness of solutions	47
3.5 Invariant measure	50
3.6 Large deviations	54
3.7 Metastability	55
Bibliographical notes	61
4 Allen–Cahn SPDE in two space dimensions	63
4.1 The need for renormalisation	63
4.2 Wick calculus	64
4.3 Existence and uniqueness of solutions	74
4.4 Invariant measure	75
4.5 Large deviations	79
4.6 Metastability	80
Bibliographical notes	84
5 Allen–Cahn SPDE in three space dimensions	87
5.1 Failure of the previous approaches	87

5.2	Perturbation theory for the Gibbs measure	89
5.3	Regularity structures: Introduction	99
5.4	Regularity structures: Algebraic aspects	102
5.5	Regularity structures: Analytic aspects	118
5.6	Existence and uniqueness of solutions	146
5.7	Large deviations	151
	Bibliographical notes	155
A	Potential theory for reversible Markov chains	157
A.1	First-hitting time and capacity	157
A.2	Dirichlet principle	160
A.3	Thomson principle	161
	Bibliographical notes	163
B	Hopf algebras	165
B.1	Definition and examples	165
B.2	Group action	169
B.3	Comodules	173
C	BPHZ renormalisation	175
C.1	Hepp sectors	176
C.2	Subdivergences	178
C.3	Zimmermann's forest formula	180
C.4	A renormalisation result	182
C.5	Decorated graphs	184
C.6	Other bounds involving singular kernels	185
D	Wiener chaos expansion	189
D.1	Hermite polynomials revisited	189
D.2	Wiener chaos	190
D.3	Wick product	192
E	Hints and solutions for some exercises	195
E.1	Exercises of Chapter 2	195
E.2	Exercises of Chapter 3	196
E.3	Exercises of Chapter 4	198
E.4	Exercises of Chapter 5	199
	References	205
	Index	217
