The EMS+MSP Joint Package

The EMS Publishing House and Mathematical Science Publishers are pleased to announce that we offer the EMS+MSP Joint Package – a bundle combining, at a significant discount, the EMS Package above together with the mathematics journals owned by MSP. Electronic subscriptions to all these journals, purchased separately, would cost about 9245 € or 11000 US\$.

The EMS+MSP Joint Package is available for 5990 € or 7140 US\$. It can be ordered from either publisher directly or through an agent. Printed copies of individual journals can be ordered individually at Deep Discount Prices directly from the journal's respective publisher.

We are hoping that many more high-quality independent and nonprofit journals will decide to join this package in the years ahead. We believe that, to remain competitive in a climate of increasing consolidation of commercial academic publishing and Big Deal bundles, small nonprofit and independent publishers and publications need to collaborate, pool their assets and marketing resources, and in particular offer an attractive bundle of their own.
